CÔNG TY TNHH CẢNG CONTAINER QUỐC TẾ TÂN CẢNG HẢI PHÒNG
TAN CANG HAIPHONG INTERNATIONAL CONTAINER TERMINAL

INTRODUCTION

Tan Cang HaiPhong International Container Terminal Company Limited (TC-HICT) is a joint venture between Saigon Newport Corporation, Mitsui O.S.K Lines Ltd., Wan Hai Lines Ltd. and Itochu Group

The first deep-sea terminal in the North of Vietnam – TC-HICT is located in Lach Huyen channel with the chart datum of minus 14m, turning basin diameter of 660m that can accommodate container vessels up to 14,000 TEU (160,000 DWT) providing direct services to the Us & Europeand remarkably reducing logistics costs, lead time without risks at transshipment hubs.

OUR ADVANTAGES

14,000 TEU (160,000 DWT)

WE are the first deep sea terminal in Northern Vietnam to serve for key economic region.

WE operate two main berths of 750m in length, channel depth of minus 14m, turning basin diameter of 660m, the depth of the water area in front of the berth could reach minus 16m.

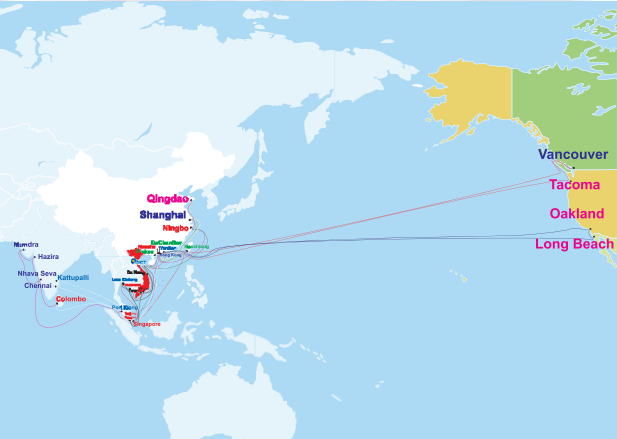

6 STS Cranes 24 eRTG Cranes 2 Slewing Cranes

WE invest in morden synchronized facilities including 6 STS cranes, which are the biggest in Northern Vietnam, 24 eRTG cranes, 2 slewing cranes for the barge berth, along with operation system "TOPS-Expert" and electronic port systems "ePort" and "eDO".

30 Trucks & Trailers

WE can accommodate container vessels up to 14,000 TEU (160,000 DWT) with the designed annual container throughput of 1.1 million TEU.

CONTAINER THROUGHPUT OF 1.1 MILLION PER YEAR

WE facilitate direct services to America and Europe for Vietnam exports, shortening the lead time of 05-07 days on average compared with other services transporting through overseas transshipment hubs. Thus, helping customer to significantly reduce logistics cost and taking initiative in delivery of goods, without risks at transshipment hubs.
